~~Dear~~ K. Letter of Nov 20, 1962

There will be no mission of Cuba not only by the US but also by other countries of the West Hemisphere. - This is the essence of an act.

The Air personnel who were servicing the rocket installations have also been withdrawn.

Will remove 16-80 within a month.

We are prepared to remove simultaneously all Air personnel connected with the servicing of these planes.

Your planes still continue to fly over Cuban territory.

We presume we have grounds to insist on similar understanding on your part also in the questions of the flights of Air. planes over Cuba.

Actual circumstances of such flights must be a major step forward.

Yes, we really agree to the request that all  
ref. could maintain the removal of rocket weapons  
X But only with the consent of Cuba.

Same goes wrong in open sea - when we had not  
promised to - we did something more than right to

As-flores was at proper time to stop not use  
drill personnel who had something to do with guarding  
the installations. 66
